WELCOME!

The **Teaching Professor Conference** is entering its 18th year! Built out of *The Teaching Professor* newsletter, we began the conference as a place for educators who are passionate about the art and science of teaching. Our secret: we listen to educators like you to continuously improve and adjust what we offer so it fits your ever-changing needs.

This year we are offering a choice of in-person and virtual registrations. Whichever option you choose, expect to experience an exhilarating event focused on the latest research-based, and classroom-tested best practices. Stop by our conference website to learn more and plan to join us in-person or online!

“I think this conference should be attended by all faculty at some point in their careers”

—David Rivera Jr, Freytag Professor/Director of HTM, Flagler College

- Instructional Vitality: Ways to Keep Teaching Fresh and Invigorated
- For New Faculty
- Faculty Support

NETWORKING

We learn as much from others as we do from the presenter. That's why we build networking to be a central piece of the conference—whether you attend in person or virtually.

“The topics provided a lot of new knowledge such as interactive teaching techniques, improving student group dynamics, testing strategies, self-behaviors, and how they affect student behaviors. Communication tips for the novice educator, grading strategies, self-reflection, and how to effectively provide feedback.”

—Teaching Professor Conference attendee

INVITED PRESENTERS

IMPROVING THE QUALITY OF SELECTED-RESPONSE QUESTIONS
