While many educators who step into leadership roles are likely familiar with Title IX, ADA policies, and intellectual property laws, overseeing legal issues on the departmental or campus-wide level is quite different from understanding them in the context of the teaching classroom.

As the consequences of noncompliance heighten, academic leaders face increased pressure to know the ins and outs of key legal issues and leverage a variety of measures that mitigate the risk of costly and time-consuming litigation and legal disputes. Make sure you're doing what you can to avoid these conflicts!
