

Online Course

Practical Solutions for Faculty: Planning and Designing a Course guides you through crucial course design concepts so you plan your next course or revitalize an existing one in the most effective and efficient ways possible.

Course Length: 10.5 hours

Course Access: The course enrollment will expire one year from date of purchase.

PRACTICAL SOLUTIONS FOR FACULTY: Planning and Designing a Course

Learning Goals:

At the conclusion of ***Practical Solutions for Faculty: Planning and Designing a Course***, participants will have gained the knowledge and insight to:

- Develop a course plan for your online, blended, or face-to-face course that includes topics, content, objectives, and assessments
- Create a course planning framework that minimizes stress for instructors and students alike
- Determine the four different types of choice that can be used in face-to-face and online course
- Identify practical ways to incorporate backward design principles into your own course design workflow
- Discuss the purpose and best practices of course outcome design
- Analyze potential ways to leverage technology to implement mastery learning while grading
- Adopt a scaffolded grade structure that rests on completion-only and feedback-only learner activities

Who Will Benefit From This Course:

- Faculty
- Educational Developers
- Instructional Designers

Practical Solutions for Faculty: Planning and Designing a Course provides an overview of as well as practical steps to implement—key concepts in creating a college-level course: Planning, Backward Design, Assessment and Grading, and Universal Design for Learning.

Effective course planning and design is the foundation of student engagement, learning, and success. Learn from expert educators as you refine and improve your courses with ***Practical Solutions for Faculty: Planning and Designing a Course***.
