

Online Course

Successful teaching today requires attention to the diverse needs of our students. **Teaching Specific Student Populations** provides eye-opening perspectives and practical solutions to make learning more impactful and environments more respectful and inclusive.

Teaching Specific Student Populations

Learning Goals:

At the conclusion of **Teaching Specific Student Populations**, participants will have the knowledge and tools to:

- Articulate the generational and cultural differences present in the classroom
- Utilize key facilitation techniques that foster higher education skills necessary for collegiate classroom success
- Develop learning tools relevant to Gen Z students
- Implement specific classroom strategies to better support first-generation college students
- Create an environment of respect for gender-variant students
- Design meaningful learning experiences for neurodiverse students
- Recognize and adapt to cultural differences among international students
- Teach and assess professionalism in professional-track students
- Be equipped with evidence that will enable you to advance the learning needs of adult learners within your universities

Who Will Benefit From This Course:

- Professors
- Adjuncts
- Instructors
- Lecturers

Course Length: 10 hours

Course Access: The course enrollment will expire one year from date of purchase.

This 10-hour in-depth Magna Online Course looks at the unique challenges of educating student groups including:
